Dear Martin:

I am writing to thank you for your fantastic input to our school on Wednesday. It was excellent to bring to the attention of the whole of Year 8 the dangers of alcohol misuse.

The tutorials were very effective with the emphasis on safety and keeping safe. As a result of both of these activities, some of our more vulnerable pupils have disclosed their activities, including in one case, where they are purchasing alcohol from. This information has been passed onto the Police. Thank you so much for visiting us and we do hope that you will be able to come again

Looking forward to forging further links.

Dear Martin:

Thank you for your very informative and hard hitting assembly. Your input was very relevant to today's lifestyle. It gave our pupils some insight into the much bigger picture and the negative effect it can have and the impact it can have on their lives and of their loved ones. I for one saw shock and disbelief on some of the pupils faces. I hope that some of those images will remain with them in years to come.

The group work was an excellent follow up to the assembly, particularly the hands on content of the sessions.

It was very generous of you to give your time so freely and to work so hard. Your input on this subject was very valuable and was greatly appreciated. We look forward to inviting you back again next year. **(2012)**

Thank you once again

Dear Martin

Thank you very much for giving me a week work experience placement with you for the 2 weeks that I worked with you, I really enjoyed my time working with you and the others. I found the work interesting and fun and I particularly enjoyed the self - defence.

Ever since working with you lot it has really boosted my self- confidence and has really made me think about how I should act in an adult environment. Please pass on my thanks to everyone that was involved on making my visit enjoyable and pleasant, it felt like I was working with a big family, they all kept me busy and made me laugh

Back in school I realised that I need to work harder on a few subjects if I want to get anywhere in life. This has given me more of an idea what I would like to do when I leave school.
